Effecting Cross-Functional Teams

Tools

- Overall Focus on Open Source Software, Tools, Practices, etc.
  - Hoping to put together a git repo as a Obsidian + Obsidian Vault
- I have so many tools I am trying to map them out, but see the related Tools page somewhere in here.
- [can give you a bigger list / idea]
- Would love fro be able to download my Timely
- Cross-Platform / Cross-OS Tools
  - Should not matter what Operating System a developer or any Team Member prefers.
  - Larger hiring pool
- See `FRAMEWORK`
